Education

- **Rensselaer Polytechnic Institute, (RPI)**
B.S. Computer Science, B.S. Cognitive Science

May 2021
GPA 3.5/4.0

Core Technical Skills

Languages: C, C++, C#, PHP, Python, SQL, Java, JavaScript, TypeScript, HTML, CSS, Zig, Rust

Software & Tools: Linux, git, CMake, CI/CD pipelines, Docker, VirtualBox, Ansible, L^AT_EX

Courses: Intro to Algorithms, Data Structures, Computability & Logic, Principles of Software, Operating Systems, Computer Communication Networks, Open Source Software, Computer Vision, Programming for Cognitive Science & AI

Work Experience

- **Lockheed Martin Rotary & Mission Systems**

Software Engineer, Level 2

June 2021 – current

- Engaged in modern C++ development on a distributed system
- Participated in an agile software engineering workflow
- Developed and integrated GPU-accelerated signal processing chains through Nvidia CUDA toolkit
- Designed and implemented a modular software architecture based on requirements, enabling rapid integration
- Integrated software defined radios (SDRs) into signal processing chains and mission management software
- Communicated with program leadership and worked with customer teams on the technical status of various subsystems
- Assisted multiple formal test events through the setup, deployment, and collection of results on site and in the field

- **Submittity**

Open Source Software Developer

submittity.org

Spring 2018 – current

- Full stack development in a Linux, Apache, PostgreSQL, and PHP/python tech stack
- Implemented a QR code scanner to detect student IDs, automating the batching of student exams and saving hours of manual data entry for instructors
- Designed and developed an OCR system to detect handwritten student ids using existing open source ML models
- Volunteered as a mentor for the organization during Google Summer of Code (GSoC) from 2019 to 2021

- **Cisco Systems**

Technical Consulting Engineer

January 2020 – June 2020

- Specialized in computer network engineering with a focus on troubleshooting customer equipment and networks
- Racked, installed, and setup Cisco devices to build network replicas for issue reproduction
- Worked with Cisco device configurations and basic layer 2 & 3 network protocols
- Co-Managed a project to automate detection of common issues in Cisco WebEx by leading and teaching a group of new developers in python and automation tools

Publications

- A Graphical System For Logical Reasoning Using Existential Graphs
Shail Patel, Bram van Heuveln

RPI Cognitive Science Dept.

- Facilitating Discussion-Based Grading and Private Channels via an Integrated Forum
Andrew Aikens, Gagan Kumar, Shail Patel, Evan Maicus, Matthew Peveler, and Barbara Cutler

SIGCSE 2019

Certifications

- Cisco Certified DevNet Associate (CCDevA)

May 2023 – May 2026

Demonstrated knowledge over DevOps, network automation, and API design and development

- Cisco Certified Networking Associate (CCNA)

May 2020 – May 2026

Demonstrated knowledge and skills related to network fundamentals
